SCHEDULE

Overview

The University of Wisconsin School of Medicine and Public Health is pleased to invite you to attend our annual conference. The conference is dedicated to bringing you the latest innovations in the field of women's reproductive and general health. Our faculty will provide discussions on state-of-the-art topics and techniques as well as cover age-old problems commonly encountered by providers of primary women's health care. The content is relevant to all providers in the field of Women's Health.

LEARNING OBJECTIVES

The 8th Innovations in Women's Health Conference is designed to:

- Review the impact of adverse birth outcomes and targeted opportunities for improvement as it pertains to the individual, the community, and society.
- Describe current preventative measures for transgender patients planning to undergo gender affirming surgery.
- List the types of LARCs and the advantages and disadvantages of each.
- Outline the complete process of preconception counseling for women with significant medical co-morbidities desiring pregnancy.
- Review risk factors for provider burnout and describe specific prevention strategies.
- Recognize the common elements of cancer prevention as it pertains to cancer of the breast, ovary, and cervix.
- Identify key components of the PLUS consortium and how these shape the research areas.

TARGET AUDIENCE & SCOPE OF PRACTICE

This CE (continuing education) activity is intended for obstetrician-gynecologists, family physicians, general internists, nurse practitioners, physician assistants, midwives, and other health professionals.

ELEMENTS OF COMPETENCE
